QUALIFICATIONS

- My time as an Operations Intern at Vine Energy Inc. and operating a Plumbing Contractor business, have enabled me to act as a project manager, perform cost-benefit analysis, and act as a steward/business representative on behalf of the Operator. The sum of my job and real-world experiences has equipped me to tackle any role; finance, engineering, support. I hope to find a company looking to create a career long partnership which prospers both parties.

WORK EXPERIENCE

Vine Energy Inc - Operations Intern (Completions/Reservoir); *Plano, TX*

Summer 2021

- Built a Step-Down Test analysis tool capable of characterizing all parameters of completions efficiency for every stage where data was captured.
- Established the characteristics required to act as a business professional on behalf of the Operator to ensure the highest quality of service company performance alongside the essential nature of bartering the most economical operations possible.
- Completed four projects in 10 weeks that effectively saves VEI more than \$300M a year.
- Learned to act as a valuable team member in a dynamic, interdisciplinary, fast-paced team and business culture.
- Built a strong understanding of all completion's operations with an extreme focus in shale (Haynesville/Mid-Bossier).

Beason Plumbing - Owner and CEO; *Tyler, TX*

Summer 2020

- Completed plumbing work as a contractor for a property management company that manages over 600 properties and assets in the Tyler, Tx area.
- Established a price in the market that secured steady work which brought value to both parties involved.
- Built an expansive Excel spreadsheet to effectively evaluate business performance.

Lonquist & Co. LLC - Social Media Intern; *Houston, TX*

Summer 2020-May 2021

- Managing two LinkedIn pages as well as the company Instagram. Two posts a week for all three media presences.
- Studied trends of growth through experimentation on the platforms.
- Focused the LinkedIn pages around topics of recovery and positivity during the Covid-19 pandemic.

King Oilfield Service - Offset/Backside Pump Technician in Haynesville Shale; *Kilgore, TX*

July 2018 - January 2019

- Managed water pumps to hold pressure on existing and backside wells as protection from the completion's operation being completed while on location.
- Learned how a frac-site is operated day to day as well as the ensemble between the fracking and wire line companies needed for the site to function fluently.

American Plumbing Company - Licensed Tradesman Plumber: ADCR, ARUI; *Tyler, TX*

August 2015 – August 2017

- Daily exposure to new problems and issues where past knowledge and ingenuity are key.
- Project Management of entire plumbing projects (new and repair): cost, parts, labor, customer coordination, coordination with superior, city planning and coding/permitting, and leadership/instruction of apprentice plumbers (helpers) on site.
