## EDUCATION

---

<b>Texas A&amp;M University</b>		College Station, TX
College of Engineering	Bachelor of Science in Petroleum Engineering	Graduation date:
	GPA: 2.9	May 2022
Mays Business School	Certificate in Finance via the Petroleum Ventures Program ("PVP")	

## EXPERIENCE

---

**EOG Resources – Production Intern;** Midland, Tx. Summer 2021

- Specialized in tank vapor recovery on late life facilities
- Developed non mechanical tank vapor recovery systems using ejector and liquid piston compressor technology
- Performed emission calculations in CO<sub>2</sub>e using ProMax
- Responsible for economic analysis on emission reduction projects
- Worked with multiple vendors on product selection and installation/operational procedures

**EOG Resources – Field Intern;** Gonzales, Tx. Summer 2020

- Responsible for plunger, rod pump, and gas lift optimization
- Managed multiple wells and facilities performing required maintenance and upkeep
- Developed procedures for multiphase measurement accuracy improvements to aid in capital savings
- Participated with well intervention such as workovers, coil tubing, and hot oil operations
- Coordinated with multiple suppliers and scheduled instillation times/procedures for multiphase equipment

**Dialog Wireline – Wireline Engineer Intern;** Midland, Tx. Summer 2019

- Free point calculations using both motorized free point tools (Dog Tools) and spring tools
- Experienced with chemical and jet cut techniques of pipe recovery along with pipe back off
- Calculated estimated free point, overpull, and work string weights for pipe recovery in various well conditions
- Ran and interpreted cement bond logs, caliper logs, spinner logs, and temperature logs
- Set packers, retainers, and cast-iron bridge plugs

**Dialog Wireline – Operator Intern;** Midland, Tx. Summer 2018

- Mobilization and Rig Up of wireline equipment
- Responsible for assembling tools, perforating guns, and explosives
- Various working environments such as drilling rigs, workover rigs, and well heads

## LEADERSHIP

---

**Petroleum Ventures Program – Vice President** August 2021 – Present

- Coordinate with fellow officers and program directors to execute program initiatives and member events

**Old Army Gentlemen’s Society – Event Coordinator** August 2020 – May 2021

- Tasked with planning events and socials with alumni, industry professionals, and members

**Dialog Wireline – Lead Intern** Summer 2019

- Responsible for training and supervising new interns with wireline safety and basic rig up operations

## ADDITIONAL INFORMATION

---

**Petroleum Ventures Program:** This program provides me with business literacy and financial knowledge through taking high level finance and business management classes in Mays Business School

**Skills:** PEC safe land and safe gulf certified, H2S respirator certified, IWFC Level 1 certified

**Involvement:** Old Army Gentlemen’s Society, Society of Petroleum Engineers, American Association of Drilling Engineers, Ducks Unlimited, Petroleum Ventures Program, Sigma Alpha Lambda National Leadership and Honors Organization

**Interests:** Golf, Scuba Diving, and Hunting
